The NATO Innovation Hub manager  
spoke with a PowerPoint presentation,  
and opened with a provocative slide that  
described cognitive warfare as “A Battle  
for the Brain.” “Cognitive warfare is a  
new concept that starts in the  
information sphere, that is a kind of  
hybrid warfare,” du Cluzel said. “It starts

The prefrontal cortex (PFC)—the most evolved brain region—subserves our highest-order cognitive abilities. However, it is also the brain region that is most sensitive to the detrimental effects of stress exposure. Even quite mild acute uncontrollable stress can cause a rapid and dramatic loss of prefrontal cognitive abilities, and more prolonged stress exposure causes architectural changes ...
