In this case, Emerson has a key sequence you can press on the wall unit to unlock the display. (btw: the screen lock is a feature that you enable on the t-stat to prevent people from making changes on the wall unit)Small issues:The light switch at the top of the t-stat is hard to find and press. I never hit it on the first attempt. Always have to feel around at the top and press hard.There is ...

Philips universal remotes are neat devices that can be programmed to operate almost any television, DVD player, Blu-ray device, set-top box, or cable box. While the setup process is different for every unique model, the gist is generally the same. You'll hold the device button down until a light blinks, enter the code for your device's brand, then check your buttons to see if they work ...

### 3 Ways to Program a Philips Universal Remote - wikiHow

Press and hold the mode key that corresponds to the type of device you want to program the remote to control. The mode keys are the buttons located along the top of the remote labeled "Audio," "DVD/VCR," "TV" and "Cable." Release the button when the mode key LED lights come on. The LED light for the selected mode key will remain lit.
