The closing chapter, "Cargo Cult Science," is adapted from the address that Feynman gave during the 1974 commencement exercises at the California Institute of Technology. [2] The book's title derives from a woman's response at Princeton University when, after she asked the newly arrived Feynman if he wanted cream or lemon in his tea, he absentmindedly requested both.

I'm in a similar boat, and I think the answer is: same way physics students do, reading textbooks and doing exercises. However I would not recommend the Feynman lectures (and, based on the preface, I think Feynman would agree). I've read about a 1/3 of the series and while I have to say they are some of the greatest technical writing in history ...
