Here is a quick video on how to Manually lift or lower your outboard engine. This will allow to refill the trim and tilt if it is stuck in the down position or even lower the engine if it is stuck ...

How to Manually Lift or Lower your Outboard Engine

I do not need the official Mercury troubleshooting instructions. I have those. I loosened the Manual Relief valve, which is necessary before attempting to manually tilt the outboard. My question is one of brute force. The outboard is 505 lbs, and manually tilting it looks to require a group effort.
