The CF6 is a two-shaft turbofan which powers medium- to long-haul Airbus and Boeing wide-body aircraft. For the CF6 MTU Aero Engines produces turbine and compressor parts. Having been manufactured for over 40 years, this engine now figures more and more importantly in MTU's repair and spare parts business.

CF6 - MTU Aero Engines

While the packaging of the traditional training manual has changed, its noble purpose remains consistent. A training manual is a set of instructions that improve the quality with which a job, process, or task is performed. Companies use training manuals with in-person, remote, on-demand, and just in time training. A few common applications include:

How To Create A Training Manual | Blog | TechSmith
